

SPECIAL SESSIONS ORGANIZATION GUIDELINES

Honorary Co-Chairs

Iñaki Goirizelaia
 President of the University, EHU/UPV
 James C. Hung
 University of Tennessee, USA

General Co-Chairs

Marga Marcos
 University of Basque Country, Spain
 Richard Zurawski, ISA Group, USA

Program Committee Co-Chairs

A. Grau, Univ. Poli. de Catalonia, Spain
 I. Sarachaga, Univ. of Basque Country, Spain

Work-in-Progress Co-Chairs

E. Estévez, Univ of Basque Country, Spain
 A. Fay, Helmut-Schmidt University, Germany

Special Sessions Co-Chairs

J. Gialelis, Univ of Patras, Greece
 E. Portillo, Univ. of Basque Country, Spain

Finance Co-Chairs

F. Pérez, Univ. of Basque Country, Spain
 T. Martin, University of Arkansas, USA

ETFA Series Steering Committee

A. Grau, Univ. Poli. de Catalonia, Spain
 E. Dekneufel, Univ. of Nice, France
 A. Fay, Helmut-Schmidt University, Germany
 J. Fuertes, Univ. Poli. de Catalonia, Spain
 H. Fujita, Univ. of Tokyo, Japan
 L. Gomes, UNINOVIA, Portugal
 F. Harashima, Univ. of Tokyo, Japan
 J. C. Hung, University of Tennessee, USA
 C. J. Kim, UCLA, USA
 S. Koubias, University of Patras, Greece
 K. Lee, Univ. of Hawaii at Manoa, USA
 V. Marik, Czech Technical University in Prague, Czech Republic
 O. Mirabella, University of Catania, Italy
 J-M. Proth, INRIA Lorraine, France
 A. Weaver, Univ. of Virginia, USA
 R. Zurawski, ISA Group, USA (Chair)

To enhance the technical program and focus on specific topics and areas, ETFA'2010 conference will include special sessions, in addition to regular ones. Special sessions can cover topics which belong to a **specific track**.

Special Session Co-Chairs:

John Gialelis (gialelis@ece.upatras.gr) and Eva Portillo (eva.portillo@ehu.es)

Special session proposal:

The proposal for a special session should be sent by Special Session Organizers to Special Session Co-Chairs, and should include:

1. title of the session;
2. names and contact addresses of the organizers, including telephone and email address;
3. the title of the **conference technical track** the session fits in
4. description of the technical area focus of the session: background and rationale for organizing the session, at least 150 words
5. tentative titles of at least four (4) contributions, together with the names and contact addresses of the contributing and committed authors, no more than a quarter of contributions is to be from the same institution;
6. type of the session:
 - a) session with invited contributions only,
 - b) session with invited contributions, a minimum of four, complemented with contributions from advertising; a call for papers should be prepared using the corresponding Special Session template.

Special Session organizers will be notified on the acceptance of their proposal after February 15, 2010. In case of acceptance, sessions Organizers will request the authors to submit their papers by the due date as advised on the conference web site; where relevant, calls for papers will be posted on the "Special Sessions" page of the conference web site.

Paper submission process:

Authors should submit their manuscripts using the conference paper electronic submission system (as for regular tracks).

Author's Schedule:

Important dates are exactly the same as the ones for regular papers, i.e.,

<i>Special Sessions' proposals submission deadline:</i>	February 15, 2010
<i>Deadline for submission of special session papers:</i>	March 15, 2010
<i>Notification of acceptance of special session papers:</i>	May 9, 2010
<i>Deadline for submission of final manuscripts –special sessions:</i>	June 17, 2010

The review process:

The Special Session papers are subject to normal review process handled by the Track Chairs of the designated Track, through the conference paper submission system. The Special Sessions Organizers are to provide to the relevant Track Chairs the names and contact addresses of at least four potential reviewers for each paper in their session. Two reviewers, if available, will be selected. At least one reviewer will be arranged for by the Track Chair from outside this pool of recommended reviewers. Authors contributing to a special session are not to be nominated as reviewers for the papers from the same session.

Milestones:

The Organizers of the Special Sessions, in consultation with the relevant Track Chairs, will prepare the final composition of their sessions, based on the outcome of the review process. Session Organizers are to be Session Chairs of their sessions. In order to allow proper composition of the Special Session, a minimum of 4 accepted papers is needed (in case of less accepted papers, accepted papers will be moved to adequate regular tracks). In order to allow proper composition of the Final Program, it is possible to move accepted papers between regular tracks and special sessions, or vice-versa, whenever appropriate.

Miscellaneous:

As for regular papers, each accepted paper must be presented at the conference by one of the authors. The final manuscript must be accompanied by a registration form and a registration fee payment proof.
